## Work Experience

---

### Full stack developer

Paandaa-Karachi

March 2024 to Present

As a Full Stack Developer at Paandaa, I am responsible for designing and developing robust web applications, managing both front-end and back-end development, and collaborating closely with cross-functional teams to deliver high-quality software solutions. My role involves leveraging my expertise in modern technologies such as TypeScript, JavaScript, Next.js, HTML, CSS, and Tailwind CSS to create responsive and dynamic user interfaces, as well as implementing efficient APIs and server-side logic. Working in a remote environment, I focus on optimizing performance, ensuring scalability, and continuously improving the user experience.
